What has worked brilliantly

A review of 1607 calls from 16–23 July 2026 showed three especially strong patterns:

Complex booking rules handled without losing the booking

When the caller's first-choice course required online prepayment, SpeakSport explained the rule, helped the caller choose another course and completed the alternative booking during the same conversation.

"For tee times on the Ravines on Fridays, prepayment is required." After the caller switched to Course 1, SpeakSport offered three available times and confirmed: "You're all set for tomorrow at 6:57 AM for 3 players."

Call on 23 July at 5:00 PM

The correct reservation was cancelled on the call

SpeakSport found two upcoming reservations, confirmed which one the caller meant, checked the cancellation policy and completed the cancellation without staff intervention.

"You have two upcoming tee times." After the caller selected the later reservation: "Your tee time on July 27 at 6:03 PM on Course 1 has been successfully cancelled."

Call on 22 July at 10:35 AM

Pass-holder context produced a personalised booking

SpeakSport recognised an active senior club pass, searched across the requested courses and times, and confirmed the selected reservation with the appropriate check-in guidance.

"On both Course 1 and Course 3, I have 8:00 AM and 8:09 AM available." After the caller chose Course 1: "You're all set for one player at 8:00 AM."

Call on 23 July at 2:42 PM

What we have rolled out

We have continued strengthening the integrated experience around booking accuracy, reservation servicing and clearer operational insight.

Cancellations on the call. Golfers can now cancel eligible bookings directly with SpeakSport, reducing avoidable transfers and releasing tee times promptly.

Stronger booking-eligibility verification. Eligibility, pass context and booking rules are checked before a reservation is created, helping prevent bookings that should not be completed.

Upcoming-booking confirmations. When golfers ask about an upcoming reservation, SpeakSport can retrieve and confirm the booking details during the call.

Richer back-office reporting. The dashboard now supports filtering calls by intent, category and outcome, making performance patterns and operational opportunities easier to find.

Building the next chapter together

We will continue enriching SpeakSport with capabilities such as self-serve knowledge-base updates and even better reporting. We would love Cog Hill to remain part of that journey—please keep sharing feedback, ideas and initiatives you would like us to explore.

NEAR-TERM DIRECTION

Self-serve knowledge base

Make it easier for your team to keep course information, policies and caller guidance current.

Even better reporting

Add clearer views of booking demand, course preferences, cancellations and caller outcomes.
