

CUSTOMER PERFORMANCE UPDATE

Fort Walton Beach Golf Club

Since launch • dashboard view: Last 1 Year • Online booking link + staff hand-off • Prepared 31 July 2026

Performance at a glance

160 Booking opportunities captured	2,296 Calls handled
33h 16m Time saved	\$698.73 Estimated cost saved

A new view of booking demand. Booking Opportunities Captured was introduced in the last week of July, so 160 is a partial-period baseline rather than a since-launch total. It counts calls where someone expressed an intent to book, play or reserve and SpeakSport took the correct next action—sending the booking link or transferring the caller to staff.

AFTER-HOURS IMPACT

21 After-hours opportunities	387 After-hours calls	5h 43m After-hours time saved
--	---------------------------------	---

What has worked brilliantly

A review of 380 calls from 24–31 July 2026 showed three especially strong patterns:

Dynamic-pricing booking demand became an immediate online path

A tee-time caller received a clear explanation of the dynamic-pricing model, chose to receive the booking link and was directed to live Pines and Oaks availability and rates.

“You can view all real-time rates and secure your tee time directly on our website or mobile app.” SpeakSport then confirmed: “I have sent that link directly to your phone.”

Call on 29 July at 6:27 PM

A caller who preferred staff support was handed off appropriately

After hearing the online booking option, a tee-time caller asked to speak with the clubhouse instead. SpeakSport respected that preference and transferred the caller to the pro shop.

“No. Could I have the clubhouse?” SpeakSport responded by transferring the caller to the pro shop.

Call on 31 July at 5:27 PM

Range information was delivered before a targeted transfer

A caller asking about range reservations received the available Trackman range hours, payment guidance and bucket price, then chose a transfer for the one detail that required staff confirmation.

“Our Trackman driving range is open Tuesday through Sunday from 6 AM to 10 PM ... The ball machine is card only, and a large bucket is \$15.”

Call on 24 July at 2:44 PM

What we have rolled out

For Fort Walton Beach, we have focused recent improvements on capturing booking demand reliably, giving callers the right online path and making each hand-off easier to understand.

Booking-opportunity tracking. The new KPI makes previously invisible booking demand measurable, including both text-link delivery and appropriate transfers to staff.

Stronger booking-intent recognition. SpeakSport is better able to recognise when a caller wants to book, reserve or play—even when speech recognition turns “tee time” into something less obvious.

Clearer online-booking hand-off. Standard booking callers can receive the direct link by text, while exceptions and callers who need human help are routed to the golf shop.

Richer back-office reporting. The dashboard now supports filtering calls by intent, category and outcome, making demand patterns and operational opportunities easier to find.

Building the next chapter together

We will continue enriching SpeakSport with capabilities such as self-serve knowledge-base updates and even better reporting. We would love Fort Walton Beach to remain part of that journey—please keep sharing feedback, ideas and initiatives you would like us to explore.

NEAR-TERM DIRECTION

Self-serve knowledge base

Make it easier for your team to keep answers, hours and operating information current.

Even better reporting

Add clearer views of booking demand, link delivery, hand-offs and caller outcomes.

About the figures and excerpts

Dashboard figures were supplied from the Fort Walton Beach SpeakSport dashboard. Booking Opportunities Captured was introduced in the last week of July 2026. Call excerpts were selected from 380 calls reviewed for 24–31 July 2026 and lightly edited only for transcription clarity; personal contact details were omitted.
