

CUSTOMER PERFORMANCE UPDATE

The Golf Club at the Highlands

Since launch • dashboard view: Last 1 Year • Online booking link + staff hand-off • Prepared 31 July 2026

Performance at a glance

98 Booking opportunities captured	4,395 Calls handled
42h 41m Time saved	\$896.60 Estimated cost saved

A new view of booking demand. Booking Opportunities Captured was introduced in the last week of July, so 98 is a partial-period baseline rather than a since-launch total. It counts calls where someone expressed an intent to book, play or reserve and SpeakSport took the correct next action—sending the booking link or transferring the caller to staff.

AFTER-HOURS IMPACT

46 After-hours opportunities	1,806 After-hours calls	17h 56m After-hours time saved
--	-----------------------------------	--

What has worked brilliantly

A review of 365 calls from 24–31 July 2026 showed three especially strong patterns:

A three-player request took the online route immediately

After confirming the group size, SpeakSport offered the standard booking link for a three-player tee time. The caller accepted, and the link was delivered by text without a staff handoff.

“We handle bookings for up to 4 players through our online system. Would you like me to send you a text with the booking link?” The caller agreed, and SpeakSport confirmed it was sent.

Call on 31 July at 9:05 PM

A caller preferring phone booking reached the right team

A two-player caller declined the online route and asked to book by phone. SpeakSport explained that the golf shop could complete the reservation and transferred the caller directly.

“For booking your tee time over the phone, the golf shop team can assist you directly.”

Call on 31 July at 9:09 PM

Online-booking difficulty was handled with a helpful alternative

When a single-player caller reported trouble with the online system, SpeakSport provided the direct tee-time website and offered immediate staff support. The caller chose the golf-shop transfer.

“You can also visit our website ... anytime to make your booking. If you’d prefer, I can transfer you to the golf shop so a staff member can assist you directly.”

Call on 31 July at 7:26 PM

What we have rolled out

For The Golf Club at the Highlands, we have focused recent improvements on capturing booking demand reliably, giving callers the right online path and making each hand-off easier to understand.

Booking-opportunity tracking. The new KPI makes previously invisible booking demand measurable, including both text-link delivery and appropriate transfers to staff.

Stronger booking-intent recognition. SpeakSport is better able to recognise when a caller wants to book, reserve or play—even when speech recognition turns “tee time” into something less obvious.

Clearer online-booking hand-off. Standard booking callers can receive the direct link by text, while exceptions and callers who need human help are routed to the golf shop.

Richer back-office reporting. The dashboard now supports filtering calls by intent, category and outcome, making demand patterns and operational opportunities easier to find.

Building the next chapter together

We will continue enriching SpeakSport with capabilities such as self-serve knowledge-base updates and even better reporting. We would love The Golf Club at the Highlands to remain part of that journey—please keep sharing feedback, ideas and initiatives you would like us to explore.

NEAR-TERM DIRECTION

Self-serve knowledge base

Make it easier for your team to keep answers, hours and operating information current.

Even better reporting

Add clearer views of booking demand, link delivery, hand-offs and caller outcomes.

About the figures and excerpts

Dashboard figures were supplied from The Golf Club at the Highlands SpeakSport dashboard. Booking Opportunities Captured was introduced in the last week of July 2026. Call excerpts were selected from 365 calls reviewed for 24–31 July 2026 and lightly edited only for transcription clarity; personal contact details were omitted.
