What has worked brilliantly

A review of 563 calls from 16–23 July 2026 showed three especially strong patterns:

Resident privileges applied correctly—and the booking completed

A Palm Beach County resident requested a three-player, nine-hole tee time for 6 August. SpeakSport correctly recognized the caller's FPC access and 14-day booking window, offered nearby availability and completed the reservation for 7:57 AM on Heron.

"August 6 is exactly 14 days from today, so you're eligible to book." SpeakSport then offered nearby options and confirmed three players at 7:57 AM on the Heron course.

Call on 23 July at 10:53 AM

A single-player request converted with a helpful alternative

When the caller's requested 9:30 AM time did not have a group available, SpeakSport kept the conversation moving by offering the closest viable options. The caller selected 9:18 AM on Osprey and the booking was confirmed.

"There's one spot remaining at 9:18 AM on Osprey." The caller accepted, and SpeakSport confirmed the 18-hole booking with a golf cart.

Call on 22 July at 8:25 PM

An out-of-window request was protected and routed correctly

A caller requested a date beyond their seven-day booking window. SpeakSport explained the applicable limit, identified the furthest eligible date and transferred the caller to the golf shop when they asked to speak with a representative.

"The furthest date I can book for you right now is Wednesday, July 29." When the caller requested a representative, SpeakSport routed the call to the golf shop.

Call on 22 July at 12:30 PM

What we have rolled out

We have continued strengthening the integrated experience around booking accuracy, reservation servicing and clearer operational insight.

Cancellations on call. Callers can now cancel eligible bookings through the same conversational experience, reducing another common reason for staff intervention.

Stronger booking-eligibility verification. SpeakSport now applies booking-window and account-eligibility checks more rigorously, helping prevent ineligible reservations while giving callers a clear next step.

Upcoming-booking confirmations. When callers ask about an upcoming tee time, SpeakSport can confirm the relevant booking details without requiring a staff handoff.

Richer back-office reporting. The dashboard now supports deeper filtering by call intent, category and outcome, making it easier to understand demand and identify opportunities.

Building the next chapter together

We plan to keep enriching SpeakSport for Okeeheelee Golf Course, including self-serve knowledge-base updates and even better reporting. We would love for your team to help shape that journey by sharing feedback, ideas and initiatives you would like us to explore.

NEAR-TERM DIRECTION

Self-serve knowledge base

Make it easier for your team to keep rates, policies, facility information and caller guidance current.

Even better reporting

Add clearer views of booking demand, eligibility, course preferences and caller outcomes.
