What has worked brilliantly

A review of 942 calls from 16–23 July 2026 showed three especially strong patterns:

Eligibility and booking-window rules were applied correctly

SpeakSport checked the caller's frequent-player-card status, confirmed that the requested date was inside the permitted booking window and found an available alternative for a single player.

"You can book tee times up to seven days in advance. July 24 is within your booking window." When 11:00 AM was unavailable, SpeakSport offered nearby options and confirmed the caller at 10:21 AM on the Raven course.

Call on 23 July at 9:00 PM

Rate guidance flowed directly into a completed booking

The caller received clear public and twilight pricing, then moved straight into availability and completed the reservation without needing the golf shop.

"Our standard public green fee from noon to 5:00 PM is \$43.19. After 5:00 PM, our twilight rate is \$33.80." SpeakSport then confirmed two players at 3:00 PM on the Raven course.

Call on 23 July at 2:47 PM

Booking and email confirmation were handled together

After securing the requested alternative time, SpeakSport confirmed the full reservation and answered the caller's follow-up question about receiving the details by email.

"Your tee time for three players is confirmed at 11:24 AM on the Falcon course with golf carts included." When asked about email: "Yes, you can look forward to receiving an email confirmation."

Call on 20 July at 5:13 PM

What we have rolled out

We have continued strengthening the integrated experience around booking accuracy, reservation servicing and clearer operational insight.

Cancellations on the call. Golfers can now cancel eligible bookings directly with SpeakSport, reducing avoidable transfers and making it easier to release tee times promptly.

Stronger booking-eligibility verification. Frequent-player-card context, advance-booking windows and other booking rules are checked before a reservation is created.

Upcoming-booking confirmations. When golfers ask about an upcoming reservation, SpeakSport can retrieve and confirm the booking details during the call.

Richer back-office reporting. The dashboard now supports filtering calls by intent, category and outcome, making performance patterns and operational opportunities easier to find.

Building the next chapter together

We will continue enriching SpeakSport with capabilities such as self-serve knowledge-base updates and even better reporting. We would love Osprey Point to remain part of that journey—please keep sharing feedback, ideas and initiatives you would like us to explore.

NEAR-TERM DIRECTION

Self-serve knowledge base

Make it easier for your team to keep rates, policies, facility information and caller guidance current.

Even better reporting

Add clearer views of booking demand, eligibility, course preferences and caller outcomes.
