What has worked brilliantly

A review of 498 calls from 16–24 July 2026 showed three especially strong patterns:

Bookings completed end to end

Eligible callers were offered live availability, could choose a suitable slot and received a clear confirmation without waiting for the pro shop.

"We have 2:00, 2:10 and 2:20 PM available." After the caller chose 2:00 PM: "You are all set for Tuesday, July 28 at 2:00 PM for 3 players."

Call on 23 July at 2:50 PM

Eligibility checks protected booking rules

When no eligible account was associated with the caller's number, SpeakSport did not create a booking and instead offered the correct human hand-off.

"I don't see an active eligible account associated with your phone number, so I can't book the tee time directly. Would you like me to transfer you to the pro shop?"

Routine questions resolved immediately

Straightforward questions were answered in the call, preserving staff time while giving golfers an immediate, useful response.

Caller: "Can you give me the rate for league play?" SpeakSport: "The rate is \$55 for 18 holes and \$45 for 9 holes or twilight league play."

What we have rolled out

We have continued strengthening the service around the moments that matter most to golfers and the pro shop.

Cancellations on the call. Golfers can now cancel eligible bookings directly with SpeakSport, reducing avoidable transfers and making it easier to release tee times promptly.

Stronger booking-eligibility verification. Eligibility is checked before a booking is created, helping ensure that callers who are not entitled to book are routed to the right team instead.

Upcoming-booking confirmations. When golfers ask about an upcoming reservation, SpeakSport can confirm the booking details during the call.

Richer back-office reporting. The dashboard now supports filtering calls by intent, category and outcome, making performance patterns and operational opportunities easier to find.

Building the next chapter together

We will continue enriching SpeakSport with capabilities such as self-serve knowledge-base updates and even better reporting. We would love Radrick Farms to remain part of that journey—please keep sharing feedback, ideas and initiatives you would like us to explore.

NEAR-TERM DIRECTION

Self-serve knowledge base

Make it easier for your team to keep answers and operating information current.

Even better reporting

Add clearer views of demand, outcomes and opportunities to improve the caller journey.
