What has worked brilliantly

A review of 637 calls from 16–23 July 2026 showed three especially strong patterns:

A same-day single-player request converted with a nearby alternative

The caller wanted to play 18 holes at 1:15 PM that afternoon. When that time was unavailable, SpeakSport immediately offered the earliest viable alternative and completed the reservation for 1:30 PM.

"I don't have 1:15 PM available. I do have 1:30 PM available for you." The caller accepted, and SpeakSport confirmed the same-day booking.

Call on 22 July at 4:10 PM

A payment question was answered without interrupting the booking

A caller requested a two-player, nine-hole evening tee time and asked whether payment could be made on arrival. SpeakSport answered the question, confirmed the required details and completed the 6:50 PM reservation.

"Absolutely. You can pay when you arrive." SpeakSport then confirmed the booking and reminded the caller that carts were included in the green fee.

Call on 23 July at 6:28 PM

Detailed driving-range guidance was handled in under a minute

SpeakSport answered a routine operational question with the regular range hours, the Wednesday maintenance opening time and the course's grass-versus-mat schedule—without requiring a staff transfer.

"The driving range is open from 8:00 AM to 8:00 PM. Since today is Wednesday, it opens late at 10:00 AM for maintenance."

Call on 22 July at 9:02 PM

What we have rolled out

We have continued strengthening the integrated experience around booking accuracy, reservation servicing and clearer operational insight.

Cancellations on the call. Golfers can now cancel eligible bookings directly with SpeakSport, reducing avoidable transfers and making it easier to release tee times promptly.

Stronger booking-eligibility verification. Booking windows, customer context and other applicable booking rules are checked before a reservation is created.

Upcoming-booking confirmations. When golfers ask about an upcoming reservation, SpeakSport can retrieve and confirm the booking details during the call.

Richer back-office reporting. The dashboard now supports filtering calls by intent, category and outcome, making performance patterns and operational opportunities easier to find.

Building the next chapter together

We will continue enriching SpeakSport with capabilities such as self-serve knowledge-base updates and even better reporting. We would love Timber Trace to remain part of that journey—please keep sharing feedback, ideas and initiatives you would like us to explore.

NEAR-TERM DIRECTION

Self-serve knowledge base

Make it easier for your team to keep rates, policies, facility information and caller guidance current.

Even better reporting

Add clearer views of booking demand, eligibility, preferred playing times and caller outcomes.
